ONS ACCESSORIES

PRODUCT KITS

FILING SYSTEM

ONS files are the best on the market, each having different characteristics to handle all filing tasks. One side is curved and the other side is straight edged to give comfort and ultimate maneuverability on nails. ONS buffers will bring unparalleled smoothness and shine. Whether it is salon enhancements, natural nails, or a competition set, shape and finish them with the best!

COLLECTABLE FILE

These long-lasting files have a unique custom curved shape. The straight edge is ideal for length, sidewalls, and grooves while the curved edge enables you to get close and flush to the cuticle without damaging live tissue. Collectable files are well balanced with an appropriate cushion in the file for shock absorption.

Features

- Silicon Carbide
- Curved & Straight Edge
- Thicker Padding

Benefits

- Prevent Skin Damage
- Saves Changing Files
- Comfortable to Use

Available in : 100 / 150 / 240 grits

PREMIUM FILE

Similar to the Collectable file, but lasts five times longer. It has less cushion absorption compared to the Collectable, but with the sturdy grit, it will enable you to finish and shape the nails faster.

Features

- Aluminum Oxide
- Premium Material
- Curved & Straight Edge
- Thicker Padding

Benefits

- Last 5 Times Longer
- Fast - Time Saving
- Prevent Skin Damage
- Saves Changing Files
- Comfortable to Use

Available in : 100 / 180 grits

SANITIZABLE FILE

All of the features you love about our file swrapped into a Sanitizable file to help better protect you and your clients.

Features

- Made of Mylar
- Grasshopper 100 (Green)
- Kitty 240 (Purple)
- Sahara Silk 320 (Yellow)

Benefits

- Sanitizable
- Hygiene

Available in : 100 / 240 / 320 grits

SMOOTHER FILE

The new and improved surface of this smoother will have you working on the finished product in no time! Curved shape is designed to handle all areas of the nail.

Features

- Buffer
- 100/180

Benefits

- Smooth Surface
- Less work
- For Salon Use

NEW FINISHER FILE

The fine grit profile of these files eliminates scratches with very little effort

Features

- Buffer
- 220/280 grit

Benefits

- Less Filing
- Eliminates Scratches
- For Salon Use

CONCLUSIVE MIRACLE SHINER

Create a high shine on all types of nail enhancements including the natural nail with accuracy, due to the unique shape, around the cuticle area.

Features

- Silicon Coating
- No Scratch

Benefits

- Brings Nail Surface to a High Gloss Shine

MIRACLE SHINER BLOCK

Create an instant shine on natural nails or enhancements. Stimulates growth while smoothing the surface for better polish application or to leave natural.

Features

- Smoother Finisher in one
- Perfect for Manicure Clients
- High Gloss Shine in a Flash
- 400/4000 grit

Benefits

- Amazing High Gloss Shine
- Better Polish Application
- Stimulates Growth and Strengthens Natural Nail
- Time Saving

FILING SYSTEM

MANICURE WOOD FILE

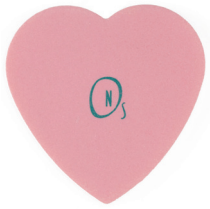

Made with thin, flexible wood that is durable and gentle for shaping the free edge on natural nails.

Features

- Gentle On Natural Nails
- 280/320 grit
- Both Sides can be Used

Benefits

- Thin to get into Short Nails
- User Friendly

HEART-SHAPE BEVELING FILE

As cute as it is practical, this Heart-Shaped Beveling File has multiple angles to get in those hard to reach areas and is gentle, on the skin.

Features

- Manicure Beveling File
- 320 grit
- Cute Look
- All Edge can be Used

Benefits

- High Gloss Shine
- Gentle on Skin
- Convenient
- Great Retail Item!

TITANIUM DRILL BITS

Strong, sharp and long-lasting. These bits will provide precision shaping to your enhancements. With appropriate care, these bits will resist rust.

Features

- Strong & Sharp
- Double Cut with Straight Edges
- Cut & Buff at the Same Time
- Smooth Finish

Benefits

- Precise Smile Line Cut
- Perfect Backfill
- Long-Lasting
- Comfortable
- Time Savings

TITANIUM BIT (MEDIUM)

TITANIUM BIT (FINE)

The medium and fine bits will cut through your backfills like butter and maintain a smooth finish on your enhancements. Ideal for acrylic but, also good for gently taking off gel color and designs.

TITANIUM BIT (CONE)

Ideal for cleaning and refining underneath nail enhancements.

MANDREL BIT

Used to hold sanding bands in place. Great for acrylic and gel enhancements.

SANDING BANDS

Disposable, smooth filing sanding bands feature a coarse, medium and fine filing profiles.

NAIL TIPS

ONS Nail Tips are manufactured by using virgin ABS (Acrylonitrile Butadiene Styrene) plastic. ONS's manufacturing methods ensure the delivery of clarity, color consistency and flexibility.

The superior flexibility of your enhancement begins with the highest-quality tip. ONS tips are thin and flexible, so they look natural and are less prone to breakage. Using a high quality tip will save time by preventing service breakdown.

Precision engineered with reinforced sidewalls, our high end manufacturing process along with design advice from the Odyssey Nail Champions has helped us develop the perfect variety of tips for everyone.

Available sizes : 400 count, 100 count, 50 count (#1-10) Refill Packs
